

THE ATHLEADER PLAYBOOK

Lesson 4

Activate Your M.V.P. & Condition A.R.A.W.

About 55 minutes of reps this week. Your core rep, Drill 4.1, takes about 15.

M.V.P. Accelerator™

POWERED BY ATHLEADERSHIP ARENA™

LESSON 4

Pre-Game Huddle: Your Focus for Lesson 4

Welcome to the game. You've done the strategic work to create your M.V.P. Blueprint. Now, we move from the strategy session to the playing field. This lesson is about how to condition your ability to execute with purpose when faced with the inevitable resistance and unpredictability of the real world.

This is where you build the core muscles of an Athleader: Resilience and Agility. The drills in this section are designed to be your "weight training." They will challenge you, strengthen your core, and prepare you to lead with confidence when it matters most.

"The plan is not the victory. The victory is in the execution."

Primary A.R.A.W. Focus:

Resilience

Developing the mental and emotional strength to absorb pressure, embrace resistance, and stay focused on your purpose.

Agility

Building the capacity to adapt your plan, pivot intelligently, and make decisive adjustments without losing momentum.

Your Objectives for this Lesson:

- Practice using your M.V.P. Blueprint as a real-time decision-making filter.
- Identify and create a strategy to manage your "internal resistance" (the inner critic).
- Learn and apply the "reframing" technique to handle external resistance.
- "Stress-test" your 90-Day Way goals to build proactive agility.

Fill it in on screen. Type straight into the grey boxes and tick the boxes that apply. Save the file to keep your answers.

Or on paper. Print the pages and write by hand.

Then get feedback. Run your core rep, then ask one person how it landed.

Drill 4.1 | Core rep · start here | About 15 minutes

The M.V.P. Decision Filter (Scenario)

In the video, Melissa shared the story of “Anna,” who used her M.V.P. to make a strategic decision. Now it’s your turn. Read the scenario below and use your own M.V.P. Blueprint to work through it.

The Scenario

You’ve just been invited to lead a new, high-visibility task force to solve a sudden company-wide operational issue. It’s a great opportunity for exposure to senior leadership. However, accepting will require you to work late for the next month, forcing you to miss family dinners and cancel the personal development course you committed to (which aligns with one of your 90-Day Way goals).

Run it through your M.V.P. filter. Refer back to your drafted Purpose, Vision, and Mission statements.

Purpose Alignment

Does saying ‘yes’ to this task force align with your core Purpose? Why or why not?

Vision Alignment

Does this move you closer to or further away from the 5-year Vision you defined for yourself? In what way?

Mission Alignment

Does this work fit within your defined Mission? Is this the ‘how’ you want to be spending your time and energy?

Propose a “Powerful Yes” (or a Confident “No”)

Based on your analysis, how would you respond? Draft an answer that is true to your M.V.P. It could be a ‘yes, but…’, a ‘no, because…’, or a ‘not me, but…’ that delegates or proposes an alternative solution (like Anna did).

Your turn, for real

Now run one real request from your week through the same four questions.

The request: _____

My answer, true to my M.V.P.:

Deeper Activation

Inner Voice & Communication

How might your inner critic (from Drill 4.2) affect how you communicate your decision in this scenario? How can you use your purpose as a counter-statement?

Wellbeing & Burnout

Journal for a few minutes on this question: How does making a decision that is aligned with your M.V.P. (like the one you just drafted) actively prevent burnout, even if it's a difficult choice?

Stakeholder Impact

Who are the key stakeholders (team, Player-Coach, family) affected by your decision? How does filtering the decision through your M.V.P. help you lead them more effectively through the outcome?

Drill 4.2 | Extra rep, if you have time | About 10 minutes

Taming Your Inner Critic

Internal resistance is often the biggest hurdle. Giving a name to that voice of self-doubt separates it from your true, powerful self.

Name Your Inner Critic:

What do you call that nagging voice of fear or doubt? (e.g., “The Perfectionist,” “The Cautious Committee,” “The Worrier”).

My Inner Critic’s Name: _____

What does it usually say? (e.g., “You’re not ready for this.” “What if you fail?” “Don’t rock the boat.”)

Write the exact sentence.

Arm Yourself with a Counter-Statement:

Write a powerful, purpose-driven statement you can use to respond to your inner critic when it appears. This should be rooted in your M.V.P.

My Counter-Statement:

Example

If the critic says “You’re not experienced enough,” your counter-statement could be, “My mission is to build innovative solutions, and that requires taking on new challenges. I am ready to learn.”

Drill 4.3 | Extra rep, if you have time | About 10 minutes

The Reframe (Practice)

External resistance is an opportunity. Practice the mental shift from “obstacle” to “opportunity” with the reframing technique.

Identify a recent moment of external resistance you faced. (e.g., A colleague was skeptical of your idea, you were told ‘no’ on a budget request, a project timeline was suddenly changed).

The Resistance I Faced:

What was your initial, instinctive reaction or thought? (“This will never work.” “They don’t support me.” “This is a disaster.”)

Now, reframe it. How could this “obstacle” actually be an “opportunity”?

My Reframe:

Try it as a “not yet,” with the question you’ll ask next.

Example

“My colleague’s skepticism is an opportunity to pressure-test my idea and make my business case even stronger” or “This ‘no’ on the budget is an opportunity to find a more creative, low-cost solution that could be even more impressive.”

Drill 4.4 | Extra rep, if you have time | About 20 minutes

Stress-Testing Your 90-Day Way Goals

Proactive agility is built by anticipating challenges. Look at the goals you set in your 90-Day Way Scorecard, or any goal you're working toward right now.

Select one important goal. Now, ask these three "stress-test" questions:

The Goal: _____

Where is this plan most likely to break? What is the single weakest link?

What is the biggest assumption I am making for this goal to succeed? (e.g., "I'm assuming I'll have 5 hours a week," or "I'm assuming stakeholder X will be supportive.")

If that assumption proves false, what is my pivot plan? (What is Plan B?)

My Notes:

The Final Rep: Align Your Pivot Plan

An Athleader doesn't just create a Plan B in isolation; they align it with key partners. Sharing your pivot plan isn't just about informing others; it's about gaining valuable perspective and strengthening your strategy before you need it.

Your Task: Schedule a brief conversation with your Player-Coach or a trusted peer. In that conversation:

- [ ] Share the goal you've stress-tested.
- [ ] Explain the potential point of failure you identified.
- [ ] Present your proposed pivot plan.
- [ ] Ask for their feedback: "What am I missing? How could this pivot plan be even stronger?"

Who I'll talk to: _____ When: _____

✎ What they said, and what I'll change:

Locker Room Reflection

After completing the drills for this lesson, what is the biggest shift in your mindset regarding how you will approach challenges and execute your plans moving forward?

Quick self-check

Just for you. Your Pulse Check, the one that tracks your season, is in the course.

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
When faced with an unexpected obstacle this week, my first instinct was to reframe it as an opportunity.	○	○	○	○	○
I feel confident in my ability to pivot from my plan without losing sight of my main goal.	○	○	○	○	○

What is one specific action you can take next week to proactively build your agility?

Get feedback

Run your core rep, then ask one person how it landed: your Player-Coach, a peer, someone on your team.

Who I asked: _____

What they said, and what I'll keep doing:

Back in the course: your Athleader Pro Huddle with Sagar Pandya, then your Pulse Check.
